MIAMI BEACH, November 21, 2022 — Visu Contemporary is pleased to announce a new gallery space in Miami Beach. Located two blocks from the Miami Beach Convention Center and directly behind The Bass Museum in the Collins Park Arts District, the gallery will be inaugurated with an exhibition of works entitled, "Ultra Contemporary: Art Now," opening on November 28, 5-8PM.

Blake Pearson, the gallery co-owner, commented, "Collins Park Arts District has a rich history with multiple institutions acting as arts and cultural anchors and drawing visitors for the greater community benefit — and we're delighted for an opportunity to contribute towards that end — and to help make Miami Beach, and Visu Contemporary, a year-round destination for art."

Visu Contemporary is an artist first gallery where emphasis is placed on quality and presentation. VISU Contemporary's mission is to contribute to the art history canon by presenting provocative and inclusive exhibitions, projects, installations, collaborations and performances with the goal of making each exhibition a must-see, while inspiring curiosity and intrigue from every visitor.
